School Motto

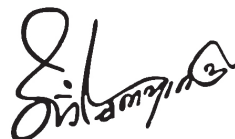

“Keep Smiling” is our motto. We believe that our children should be moulded by this motto. We hope they will lead a balanced life under all circumstances, whether in joy or sorrow, in success or failure, in honour or dishonour, in prosperity or adversity. This calmness of mind expresses itself in an eternal smile.

PUJYA GURUDEV'S MESSAGE

From a feudal, quiet, sleeping society, our country is today marching into the modern, fast electronic age with our heads flaming with material ambitions and our hearts shrinking into ugly selfishness. The over-emphasis on materialism has made individuals twisted and ugly in their essential cultural grace.

The politician, the economist and the scientist cannot see anything beyond the material world and they should be so. Theirs is the job of organising and creating a rich, prosperous and peaceful world around with technology contributing to the comforts and achievements of the members of the society. The educationists are to bring about an extra beauty in the performance of man in the society as a result of their cultivated inner discipline and larger vision.

We are trying in our Vidyalayas to conduct the children to score in the material world, following the secular syllabus prescribed by the Govt., but taught in an atmosphere of spiritual presence. We select, train and therefore, expect our teachers to have such a spiritual balance in themselves, so that they can throw around them the grace and glory of the Spirit in the class room. Under such a gracious canopy of moral and ethical charm we find the students blooming into men and women, self-controlled, disciplined and dynamically striving with a magnificent vision.

SIGNIFICANCE OF CHINMAYA VIDYALAYA FLAG

Yellow depicts a positive outlook or vision of life.

Brown colour represents knowledge of life and its purpose.

The 'treasure' symbolises that life and purpose is not country and its culture.

The globe stands for universal nature.

Lord Chinmayaram's eternal presence and teachings are characterised by his signature of lotus.

The Vidyalyaya motto, 'Keep Smiling' reminds us to face all challenges of life with a smile.

SCHOOL PLEDGE

We stand as one family
bound to each other with love and respect.
We serve as an army,
courageous and disciplined,
ever ready to fight against
all low tendencies and false values
within and without us.
We live honestly
the noble life of sacrifice and service,
producing more than what we consume
and giving more than what we take.
We seek the Lord's grace
to keep us on the path of virtue,
courage and wisdom.
May Thy grace and blessings flow
through us to the world around us.
We believe that the service of our country
is the service of the Lord of Lords
and devotion to the people
is the devotion to the Supreme Self.
We know our responsibilities;
give us the ability and courage to fulfil them.

OM TAT SAT

CHINMAYA VIDYALAYA EMBLEM

Its Significance

The Chinmaya Vidyalaya has for its emblem, the lamp and the 'Hamsa' bird. In the light of the Scriptures (represented by the lamp) the discriminative power of the human intellect (represented by the Hamsa bird) is to be developed. Vedic tradition describes Hamsa as a bird that can drink milk alone from a mixture of milk and water. The human intellect with its discriminative power must be able to discriminate between Spirit and matter and must come to enjoy the spiritual essence in the world of names and forms. Thus the emblem indicates that the function of the Mission is to help people in developing ethical values and cultivating in them discriminative intellect.

ORGANIZATION

Chinmaya Vidyalayas are run under the auspices of the Central Chinmaya Mission Trust in different parts of the country. The Vidyalaya in each place is administered by a Managing Committee consisting of local members of the Chinmaya Mission and other people interested in the cause. The school at Kasaragod runs classes from Kindergarten to Senior Secondary level.

In a growing child, individuality unfolds over the years stage by stage. His/Her awareness and understanding, abilities and capacities unfold as he/she becomes more and more aware of our world and gradually moves from the dim consciousness of infancy through the dreamy days of childhood, to the intellectual awareness of adolescence and beyond to adulthood. We should assist in this awakening process in the healthiest possible way, by bringing to the child the right kind of educational nourishment. This is what Chinmaya Vidyalayas aim at with sincerity in the best interests of the children and their future.

AIMS & OBJECTIVES

The primary objective of Chinmaya Vidyalaya is

1. To offer children a value-based and holistic education, which paves the way for an integrated development of their physical, mental, intellectual and spiritual aspects of their personality, which is enriched by the knowledge of Indian culture, enhanced by patriotism and a universal outlook.
2. To give a practical and judicious combination of academic excellence, extra-curricular pursuits, character building and personality development.
3. To mould children into young men and women of moral strength who can face the challenges of modern life with a smile and make a difference in the world by their positive contribution.

The aim of the institution is also to bring about the harmonious blending of the traditional and the progressive methods of education as a tool to achieve the all-round development of the personality of the child. Our endeavour is to "create free human beings who are able to impart in themselves purpose and direction to their lives". Our teaching methods and subject-matter are so evolved that they can develop, harmonise and bring together the power of thought, feeling and action in the child. When this integration of head, heart and hand is brought about, the base will have been laid for mental adaptability, initiative and moral strength in adult life. Inshort, our aim is to impart the best of education with utmost care, love and understanding with a view to instilling in these young minds, moral and ethical values, strength of character, discipline, national outlook, firm faith in all religions, and an abiding spirit of service and sacrifice and thus help and encourage them to develop a healthier and broader outlook on life.

Guidelines for getting best results in studies

1. Time is precious. Never waste time. A fixed time should be set aside for study daily at home.
2. Take up first the subject you most dislike. Once you have done this, the rest of your work will be easy.
3. Read English news papers regularly. Listen to the English news on radio/T.V. This will not only improve your English, but also widen your general knowledge.
4. Always revise the work done in class and make sure that you have understood everything clearly and thoroughly before you pass on to something new. Do not leave revision until examinations. Feel free to ask your teacher for further explanation if you have any difficulties.
5. Work out problems in Mathematics several times. Mere reading will be of no use.
6. Cultivate an interest in games. Recreations help to refresh your mind and give new energy for study.
7. There is a time for work and time for play. While studying let your whole heart be on studies and while at play, enjoy it completely.
8. As you grow up make a daily time-table for yourself for your studies, meals, rest and recreation etc. This will enable you to cultivate regular habits, your most valuable asset in later life
